RE: Resource Recovery Application, RR0180, Classification - U

Dear Mr. Buha:

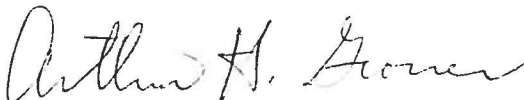

Please consider this letter as an approval to continue resource recovery operations in accordance with, and only under the conditions specified in your previous resource recovery certification until May 1, 2000. The previous certification, RR0180, for The Norman Corporation was extended to expire on March 1, 2000. An application for renewal has been received; the application is complete as of February 24, 2000. This approval for the extension of resource recovery certification activities is effective only until May 1, 2000 or until your renewal application is acted upon.

10 CSR 25-9.020 (4) requires an application fee be submitted for resource recovery certification. Please be advised that the one hundred dollar (\$100) fee must be received by the Missouri Department of Natural Resources, Hazardous Waste Program, before a certification will be issued. The check should be made payable to the Missouri Department of Natural Resources, Hazardous Waste Program and marked as regarding RR0180.

Please be aware that all activities at this facility must comply with other applicable state and federal regulations. If you have any questions regarding this letter, please contact Mr. Daniel A. Carey, Environmental Engineer, at (573) 751-3553.

Sincerely,

HAZARDOUS WASTE PROGRAM

Arthur H. Groner
